Minnesota Department of Health is an excellent resource for Coronavirus related issues

If you have any of the following symptoms of COVID-19, please seek medical care, you can use this Tool for checklist (https://mn.gov/covid19/for-minnesotans/if-sick/is-it-covid/)

- fever
- cough
- shortness of breath
- Some patients have had other symptoms including muscle aches, headache, sore throat, diarrhea, or loss of taste or smell.

These symptoms may appear 2-14 days after exposure

Testing for COVID-19

*People who do not have symptoms should not be tested for COVID-19

- Testing is prioritized for people who are ill and who live or work in congregate settings (such as long-term care facilities), are at increased risk of severe disease, provide direct medical care, and provide child care.
- For additional details use Minnesota's screening tool to help you determine if you should be tested for COVID-19
  https://mn.gov/covid19/for-minnesotans/if-sick/get-tested/

Testing locations

Most clinics and hospitals across the state have the ability to collect samples (specimens) for lab
